Attention: Hearing Commissioners Variation 3 – Taiwaiwe Catchment Structure Plan

Dear Commissioners,

Heritage New Zealand Pouhere Taonga – Letter to be Tabled at Hearing – Taiwawe Catchment Structure Plan

Heritage New Zealand have reviewed the evidence submitted on behalf of the proponent of the variation, specifically the statement of evidence provided by Graeme Lawrence, and Version 11a of the proposed Taiwawe Structure Plan text, dated 5th March 2021, provided by Mr Lawrence via email to Hillary Hodges of Thames Coromandel District Council on the afternoon of the 5th March 2021.

Heritage New Zealand supports the revisions to the variation provisions incorporated in this revision of the document and consider they provide relief in respect of the issues outlined in our submission.

I would be very happy to provide any additional clarifications should that would assist the commissioners should that be required and can be contacted as per the details provided below.

Yours sincerely

Susan Andrews
