### Any other comments.

I would like to see a rates freeze, in fact it would be great if they were reduced. The cost of collecting and processing our rubbish is one of the things sited as being a huge cost. Could a system be introduced where some of us organise our own rubbish disposal as we are not permanent residents of Whangamata. We compost, recycle and produce very little rubbish each time we visit.

The council workers do an excellent job in Whangamata keeping the town tidy, maintained and beautified.

As one of our sources of income has stopped due to Covid-19 the rates will be an added burden to our expenses for the rest of the year.

### Hearing

**Would you like to speak at a hearing in support of your submission.** Not answered by consultee
