

# COROMANDEL MARINE/ AQUACULTURE PGF FUND APPLICATIONS

## 3 Coromandel Gateway Project.

\$22M project that will be 67% funded by Pita Street Development Limited. The remaining 33% will be sought from other funding avenues – including PGF. The Coromandel Marine Gateway project involves the build of a marine facility that would include boat-stack storage on land, limited berths for fishing charter boats, a marine services area for minor maintenance, facilities for charter vessels and a potential ferry landing for an Auckland-Coromandel Town service.

## 2 Expansion of the Sugarloaf Wharf for commercial aquaculture.

The Coromandel Marine Farmers Association (CoroMFA) are applying for an expansion of the Sugarloaf Wharf within the Coromandel Harbour to increase commercial production of aquaculture from this facility. Approx. 30% of NZ Greenshell mussel production and 24% of New Zealand's Pacific Oyster production by weight is delivered by our district. Anticipated growth from 25,000 tonnes to 60,000 tonnes over next 10-15 years

## 1 Kopu marine service and business precinct.

Potential to build upon marine precinct facility – marine servicing. Linked to Hauraki District for tourism. Water-based tourism growth. Potential for other business/light industrial activity.
