

GUIDANCE INFORMATION

Building Consent and Inspection fees

APPLICABLE FROM 1 JULY 2019 - 30 JUNE 2020

Council has two key roles in Building Control. One is the processing, inspecting and certification of building work via the Building Consent process. The other is that of a Territorial Authority with the primary focus on Public Safety. With particular emphasis around Building Warrants of Fitness, Swimming Pools and Earthquake Prone Buildings. In addition to this the TA function deals with illegal buildings, enforcement actions and general guidance.

Council's Consent and Inspections role is independently assessed every two years as a Building Consent Authority.

Given the range of building project work that Council processes, a range of fees are applicable. These usually consist of an initial fee and any further fees required are charged at an hourly rate if technical advice or processing exceeds the initial fee.

These charges apply to all actions of the Council for which a charge may be levied pursuant to Section 219 and 240 of the Building Act 2004. The following outlines general fees for processing Building Consents. Further detail is provided under headings in the tables below:

Inspection Fees rate duration

All fees for Building Consent Inspections are valid for the two year duration of a building consent. If you require an extension any inspection carried out during the extension period will be at the rate applicable at the date and time of the inspection.

Investigation/Enforcement Fees

The Council will investigate instances of alleged non-compliance with the Building Act 2004, the Building Code and related matters. In the event that an investigation concludes that an offence has occurred, costs associated with such investigations, calculated in accordance with the hourly rate specified, will be recovered from the offending party or owner of the property on which an offence has occurred. Where a non-compliance with the Building Act, Consent or Building Code requires a Notice to Fix Council will also charge for the cost of the Notice.

Please also note that:

- The standard fees in this schedule are minimum fees.
- Building consents will be granted and released once full payment of the fees has been received.
- Where the cost of processing significantly exceeds the fee or deposit stipulated below, then an actual time charge shall be payable at the hourly rate as set out in the schedule below.
- Fees associated with processing the building consent cover the assessment only. Inspections, lodgement, Code Compliance Certificate (CCC) and other professional fees are charged separately.
- An initial lodgement fee is required with all Building Consent and Certificate of Acceptance (COA) applications.
- COA's require the highest level of technical input which may result in additional fees.
- Council will refund any unused portion of fees for cancelled or withdrawn consents.
- Specialist services (payable at cost) and Central Government levies payable via Council are additional to fees and charges.
- Fees are charged based on the market value of the building project or as specifically identified.
- The deposit fee is the total of the document online fee, the planning check fee and the processing fee, based on project value unless otherwise stipulated.

BUILDING CONSENT PROCESSING FEES (subject to the building Act 2004)

Building projects valued at \$20,444 and over are subject to levies from the Department of Building and Housing (DBH - part of the Ministry of Building, Innovation and Employment) - 0.201% per \$1,000 of the building project value and Building projects over \$20,000 are subject to levies from the Building Research Association of New Zealand (BRANZ) 0.1% per \$1,000 of the building project value.

BCA Accreditation and Assessment Levy charged for meeting the standards and criteria under the Building Accreditation Regulations 2006 - \$0.40c per \$1,000 or part thereof of the value of works over \$20,444.
