

Question 4: TCDC provides a number of services in your area, please rank these according to what you think TCDC should make its top priority to least priority for service provision – eg. highest priority (1) lowest priority (7)										
Feedback #	Type	Traffic Management and Car Parking	Improved tourist facilities such as walking tracks, toilets, marketing	Wastewater Improvements	Drinking Water Quality	River/Stream Quality	Zoning	Other	Comment	#1 reasons
1	Hahei	1	2	In area of Benefit already	4	3	5			Existing facilities totally inadequate. Footpaths kerb and channelling. The tourists and local walk on the roads (Hahei Beach Road and Harsant Ave and the Motor Camp)
2	Hahei		1			1	1		The Wigmore stream needs a good clean up.	Stream in Wigmore Cres
3	Hahei	1	5	4	3	2	6			Because traffic has been a problem at beach front, and made worse by the water taxi. So no more commercial operator on our beach please we locals are between the kayaks and water taxi, the kayaks have expanded a lot.
4	Hahei	3	1	4	6	2	5			Because tourism is the main source of capital and employment in much of the Coromandel.
5	Lees Road	1	1	1	1	1	1			
6	Hahei	2	1	5	6	3	4			Tourists are already coming in big numbers but facilities haven't kept up. Can't stop people coming but facilities need improving. The new parking area needs an abution block and one will be needed at Lees Road. A toilet facility will also be needed on the blowhole track.
7	Hahei	5	4	2	1	3	6			Drinking water quality has the greatest effect on my health and well being
8		5	6	4	3	2	1		No more beach commercial operators e.g. taxi, Kayak should meter parking on beach front	Concern for expansion of residential on water/waste/roading
9	Hahei	5	4	2	1	3	6			Public health should be #1 concern everywhere in NZ.
10	Hahei	1	4	2	3	6	5	1		By laws are required to solve unique problems for 80 Grange road and neighbours. The all to often chaos of illegal parking on road reserve area that provides access to our properties.
11		1	1	2	7	3	6	5	Permanent signage for easing street parking particularly patricia place and grange road.	Congestion and inability of residents ease of access for trucks / rubbish collection trucks and boat transport.
12	Cooks Beach	4	2	6	3	5	7	1		I have three concerns 1) Completion of lookout path across from 1093 Purangi Rd 2) Proper Permanent solution to Flaxmill Bay erosion 3) Replacement of shakespear lookout sign with correct spelling Please!
13	Cooks Beach	5	2	7	1	4	6	3	3(a) Civil Defence evacuation plan - the TCDC is negligent in my view for continuing to provide only ONE ENTRY/EXIT ROAD in Cooks Beach. 3(b)Coastal Dune erosion - a big issue and concern to all at Cooks Beach. Council have not resolved this issue in our bay yet.	Safe, pure drinking water is an essential component for survival for all living being so has to be #1. It's the only live or die service.
14	Cooks Beach	4	2	6	3	5	7	1	Better maintenance of the existing walkways and vegetation	There are times and conditions along our pathways appear untidy and unkempt
15	Cooks Beach	2	3	5	4	1				Kiwi way of life to swim and drink in streams; need to prevent run off sediment and cow poo!
16	Hahei	4	5	2	3	1	6			Important for residents/visitors that receiving environment is maintained/improved with regards to water quality. The life of the town depends on it. 2 and 3 result from 1.
17	Hahei	1	3	6	4	2	5			Solving this will relieve local tension and make sensible discussion about everything else more likely
18	Lees Road	2	4	1	5	6	3	7		Long overdue essential top priority
19	Hahei	1		3	2	1				I think stream quality issue equals the parking one. I live and work here year round. Its horrible during the peak. Our stream is polluted and it's a disgrace.
20	Hahei	2	7	1	2	1	5			Really
21		1	3	5	6	3	2			The speed that tractors travel alongside Wigmore stream combined with the number of families at the stream mouth is of concern. Also the number of vehicles on the beach <u>not</u> towing trailers increases the risk of an accident.
22	Hahei	1	1	2	7	2	3	5	I would like a discussion on what constitutes "Improved tourist facilities". Most tourists don't highly use walking tracks apart from Cathedral Cove.	Tourists need to be spread outside of Hahei. Hahei traffic is at breaking point over summer. Not helped by freedom camping in car parks.
23		1	3	5	6	3	2			Traffic management of tractors on the Beach is severely lacking. Current speeds of most (except for the two or three) are well in excess of the 10 sign indicated on the board located at the tractor entry point on Wigmore Crescent. If this beach access is to be an alternative great walks access major monitoring is required. Tractor speed through the dry loose sand is dangerously close to families playing at the mouth of the creek and with high tide, families are at a maximum, width of available beach at a minimum. in addition, there are a number of vehicles/tractors on the beach simply carting beach great (no watercraft) to the beach. I would recommend that regulatory speed limit signs be installed (I think years ago these was one on Wigmore Cres) on every location for vehicles to the beach with bigger signs indicating what vehicles are permitted. The TCDC need to monitor and fine those speeding illegally on the beach. Drivers will protest they need to speed to get through the loose sand - ether they get a 4wd tractor, as smaller boat or launch at Purangi. Speeds should be safe (to match the 10 recommended speed on the board).
24		1								
25	Hahei	4	5	3	1	2	6	7		
26		2	1	6	4	3	5	7		Getting to busy on roads, dangerous for walking to the beach.
27		1	2		3					
28	Hahei					1				All important but mostly stream water quality
29		2	1	5	4	3	6			
30			1			2				
31		2	1							Traffic Management needed with all the tourists
32	Hahei	1	2							
33	Hahei	1								
34	Cooks Beach		1							
35						1				
36	Cooks Beach	4	5	3	6	1	2			Invest in things that benefit the ratepayers as a priority - swimming in stream important.
37	Hahei	1	2	5	3	4	6			
38						1				One way bridges are an issue in Tairua
39		N/A							give locals what they need - need enough parking for tourists.	
40	Hahei									
41			1							Need to be tourist friendly
42	Cooks Beach	N/a							Christine Only	freedom campers should use the camp ground.
43	Cooks Beach	1								
44	Cooks Beach		1							
45	Lees Road									All a priority - cant do one without the other - all a priority. All independent.
46		1								Came to the (No Suggestions) for the beaches.
47	Cooks Beach			3	4	1	2			
48										Most things work well, New pontoon at boat ramp at cooks beach working well
49	Cooks Beach	1								Car parking improvements
50			1							
51			1							
52	Cooks Beach		1							More toilets
53	Hahei	N/a								
54			1		2					Freedom camping is an issues.
55					1					
56	Cooks Beach		1							
57	Cooks Beach	1								
58		1								
59	Cooks Beach	2	1	5	3	4	6			
60			1							
61		4	5	2		3	1			There is scope for residential development in Hahei and the need for this has been present for many years. The desire by a core group of residents to keep Hahei exclusive is not reason enough to stall much needed development.
62		5	4	2	3		1			Hahei is a developing community and there is a need for more residential properties. Cars should not be allowed on the beach - a danger to Children!

71		5	1	6	4	2	3			Such a beautiful part of the world, raise walks is a great idea, Walk to hot water beach.
72	Hahei	1	3	2	6	4	5			do put my comments about people not talking the park in ride option as their first choice.
76	Lees Road	2	1	6	5	3	4	7		Tourist are coming no matter what we do or don't do. Lets make it a better setup for both the locals and tourists which in turn will help protect the environment and all that makes this place so special
77	Hahei	5	2	3	1	4	6		Decent public Toilets	The water is high in minerals that form unsightly build up on showers etc. and tastes disgusting
78	Hahei	2	1	5	4	6	3		Clear growth on the corner of Grange Road at the top of the rise passed the Tutaritari going up. People pass here to access Tutari Reserve.	It's the biggest problem
79	Hahei	1	2	3	5	6	4			1 & 2 GO HAND IN HAND. Hahei is a tourist destination so we need to provide the facilities to cope with increased numbers.
80		5	6	1	3	2	4	7	Retain Hahei natural beauty	Traffic management - to find solutions to avoid additional traffic stress on Hahei. To prevent the over development of Hahei and to prevent high-rises being built
81		2	1	6	5	4	3	7		1 & 2 GO HAND IN HAND. Hahei is a tourist destination so we need to provide the facilities to cope with increased numbers.
82		5	7	2	1	1	7	7		Our water quality as that is what attracts the tourists after all.
83	Hahei	2	4	1	3	5	6			About time sewerage was taken off septic tanks.
86		1	2	3						Because it's a bottleneck at the busy season
87		1	6	3	5	2	4	7		Important to avoid clogging up in Hahei and Grange Road
88	Hahei									I think all these issues need to be addressed and can't prioritise
91	Lees Road	2	1 with a proviso	5	3	4	6		The proviso about No 1 is that I don't believe we should be marketing to encourage more tourists when the infrastructure already can't cope.	The number of toilets for the existing number of tourists is woefully insufficient which encourages/necessitates defecating in other areas, e.g. the sand dunes.
92		Page 3 not included								
93		1	2				3	4		With increased tourism traffic and parking and infrastructure top priority
94		5	7 & 6	3 & 1	4 & 3	2	1 & 4	6	Improve services for residents - libraries, parks etc. Retain Hahei natural beauty.	Avoiding over-development and detracting from the beauty and accessibility of this area. No high rises or mass housing developments. Traffic management - to find solutions to avoid additional traffic stress on Hahei. To prevent the over development of Hahei and to prevent high-rises being built.
95		1	3	5	6	4	2			Increased road traffic has impacted on Hahei during summer months. Needs to be managed properly.
96	Lees Road	2	3	5	4	1	6	7		River and stream quality is paramount because all life stems from water.
97	Lees Road	1	2	5	3	4	6			Car parking definitely needs addressing and Lees Road is an excellent solution.
98	Lees Road	1	2	5	3	4	6		Car parking definitely needs addressing and Lees Road is an excellent solution.	
99	Lees Road	1	3	5	4	2	6			I am totally against Lees Road car park but believe more parking and public transport is needed to take people from car park through Hahei to Cathedral Cove.
100		1	6	3	4	2	5	7		
101		4	6	1	2	3	5			Priority should be on locals and non resident ratepayers.
102	Hahei	4	6	1	3	2	5			When flooding occurs sewage leaks into stream
103		4	6	1	2	3	5			Septic overflows should be avoided.
104		1	2	5	6	3	4			We definitely need more signage and the Grange Road car park. Letting people know there are toilets in the car park and at the Cove. This needs to be in many languages.
105	Lees Road	3	1	5	2	4	6			With such overcrowding during peak times, people urinate and defecate in residents properties.
106	Lees Road	3	1	2	4	5	6	Cross	No more marketing until vastly improved infrastructure is in place	Not nearly enough toilets for the number of tourists coming now. Certainly can't cope with more tourists.
108		1	2	3	4	5	6	7		It is an obvious problem in a small village with limited roading. There has to be a solution or a New Zealand treasure will be compromised due to lack of foresight.
109		7	7	1	7	2	7	7		The septic tank system cannot cope with current requirements.
110		1	6	3	4	5	2		Reconsidering the water taxi licence as it currently is (see previous comments)	
111	Lees Road	1	2							We have tourists coming to our home in Lees Road looking for Cathedral Cove.
112		3	5	2	6	1	4	7		The Wigmore stream is disgusting - needs clean-up and protection. Need to avoid septic tank leakage into stream, and protect its catchment from ruminants.
113		6	3	1	4	5	2		Need better sign posting of toilet facilities at entrance and at the Cove - SO MUCH crap (literally) in the bushes. Need more rubbish bins.	
114		1	4	3	5	2	6			If you want more people visiting our village you first must supply parking. Some visitors don't care where they park.
115	Lees Road	1	2	6	4	5	3			There are currently no public facilities available at Cathedral Cove - Coromanel's jewel.
116		2	1	5	5	4	3			Too busy!! In small Hahei and around garage/dairy and Grange Road corner - mayhem!! Lots of cars park now in our street - Cathedral Court!
117	Hahei	1	4	6	5	2	3			Cannot do 1 without the other.
118	Hahei	4	4	3	2	1	6			
119		1		4	5	2	3			The need to reduce traffic in Hahei during peak times
120		1	6	5	4	2	3			Hahei cannot cater for the volume of traffic it currently has, so will have a greater problem with future growth
121		1	5	3	2	4	6			
122		1	6	4	3	2	5			Traffic and Parking is already a problem at Hahei during peak times. Growing tourist numbers will continue to provide more issues.
123		1	5	3	2	4	6			There are far too many cars around the very small town of Hahei
124		2	7	1	2	1	7			Protect the environment
125		4	5	1	2	3	6			To allow us to safely swim in rivers and streams (not just beach)
126		1	3	4	6	2	5			Obvious if you visit Hahei Village in summer
127		6	5	4	3	2	1			
128		3	1	2	4	5	6	7	Given the number of visitors the number of toilets are woeful.	Provide options too to current residents on septic tanks to join scheme with national payment options.
129		1	2	3	6	4	5	7		The issue is at breaking point in peak months. Other issues are not esp. as many residents provide for their own drinking and wastewater.
130										All of the above are of equal importance.
131		1	2	5	6	3	4	7	The two streams crossing Hahei Beach are unsafe for swimming, but visitors don't know this and continue to let their children play in them. So much for 100% clean NZ.	The increasing visitor numbers will eventually kill Hahei as a holiday destination unless they are checked.
132	Hahei	5	7	1	2	3	6	4	Footpaths - very dangerous Wigmore Cres/Pa Road corner - cars going around this corner and no where to walk.	Need urgently proper sewerage for every property. This needs to be a Council initiative.
133		5	6	2	3	1	7	4	Footpaths - Wigmore Crescent and Pa Road dangerous a moment with kids/prams/bikes. No where to walk but on road as cars on grass verge. Difficult to walk, push prams etc. on verge.	This stream has issues as long as I remember. Surely it can be fixed. Its important for environment, family use, green image and it's a man made issue that we need to resolve.
134		1	3	4	6	2	5			Hahei is already close to being overwhelmed by tourists. TCDC should sort out this Hahei to Cathedral Cove parking and traffic management before embarking on extensions to the route!
135		1	2	4		5	3			See traffic management is critical for forward development.
136		1	2	4	5	3	6			Expand, if necessary, the car park at the entrance of Hahei, provide toilets there. Create the car park at the start of Cathedral Cove walkway a drop off/pick up only for all times of the year.
137	Hahei	4	2	5	6	1	3			Public toilets are required at the car parks.
138	Lees Road	3	6	5	4	1	2			I know of several people who have got wounds infected after walking through the Wigmore stream.
										It is most used by young families and is not compatible with a "Clean Green" Hahei.

139	Lees Road			1=	1=	1=				We have not answered above fully as we wish to see Haheis village atmosphere and natural charm retained at all costs. We believe that most ratepayers and visitors are attracted to the area by its natural unspoiled beauty and will put up with some inconvenience to retain this natural character.	We think tourist attractions in Hahei and Hot Water Beaches should not be developed further except for upgrading existing toilet facilities. Otherwise TCDC should concentrate on normal Council service provision
140	Lees Road	1	3	5	2	4	6	7		Property end Wigmore - people constantly parking in front of driveways and front lawns along the whole of Wigmore Cres!!!	
141		1	2	*	*	3	?			*We are on rain/tank water and septic tank which is more than adequate for our needs	
142		2	7	1	3	1	6	1		Hot Water Beach and Cath Cove are established over promoted destinations. Do we really need more attractions? Is this the majority of Ratepayers best interest.	Need to address the long outstanding Waste water issues and protect the environment for future generations.
143		2	5	1=	3	1=	4				
144		2	7	1	6	1	6	7		Shortage of water at peak, no fire fighting water reserve and yet every year tourist no's increase using our water/toilets	The threat and impact on our Environment needs to be addressed both TCDC and WRC need to take responsibility
145	Hahei	6	1	4	5	3	2	7			Ample serviced toilets, and information/maps would reduce the nuisance factor of visitors.
146	Hahei	1	3	5	6	2	4				Hahei has the finest reputation for tranquillity and natural beauty - we want everyone to share and appreciate this, not be overrun with campervans/buses in residential streets.
147	Hahei	3	5	1	6	4	7	2		Reducing traffic speeds in the village and Harsant Ave as it is dangerous for children	
148		1	2	3	4	5	6				Has the biggest impact on all within the village. Goes in hand with growth of tourism in the area.
149	Lees Road	1	3	2	5	6	4	7			Vehicle congestion in Hahei for Cathedral Cove visit is now bad over summer and will rapidly worsen with more tourists.
150		3	2	1	5	4	3				Increase in tourist numbers must be catered for
151	Hahei	1	2 (with toilets underlined)	3		2	7	1		More seats on grass above beach area - like the new you have already installed. More steps to beach, people are destroying the banks. Many more rubbish bins. Rubbish overflows and floods everywhere.	
152		4	5	1	3	2	6	7		Wigmore stream is a filthy embarrassing polluted eyesore for a clean green tourist attraction as Hahei is.	Septic tanks on Pa Road etc. are mostly 40 year old failing systems, draining into Wigmore stream
153		5	7	4	1	2	3				Off leach dogs areas
154	Hahei	2	6	4	3	5	1			The water supply to the village in general is not adequate for the increased numbers using the facilities.	The village has never been planned from the outset it has grown in bits over the years.
155	Hahei		Tick in box	Tick in box		Tick in box				The toilet block on the beachfront is old and inadequate. Another toilet block at the other end of the beach would be advantageous	
156	Hahei	1	2	6	5	3	4			This is simply the most immediate need over the Xmas period.	
157	Hahei	4		2	1	5	3			Difficult to number as one impacts on another	Primary responsibility of Council to provide safe water for drinking to its ratepayers.
158	Hahei	1	6	3	4	2	5				We are the hub of the Cathedral Cove walk. Without adequate parking there has been problems for the tourists visiting.
159											See Other Comments
160		3	2	4	6	1	5				Rivers are polluted with sewerage at times of high rainfall and from overflow from treatment plant. Further development of Hahei will make this worse.
161	Lees Road	1	2			3				We are on own water supply and wastewater disposal. The rest don't affect us on Lees Road	The traffic around the Cove parking is a shambles at the present time. Building the Lees Road park will help these issues.
162	Hahei	1	3	5	2	4	6	7			
163		1	4	5	2	6	3			Cycle tracks between centres to make cycling safer	Because the situation with regard to summer traffic levels in Hahei has been unsatisfactory for some years and needs resolving now.
164		2	1	4	5	6	3				Public toilet facilities in Hahei are stretched to the maximum Xmas-end of January. Temporary facilities in the 'new car park' didn't happen
165		2	1	3							
166		2	3	6	4	5	1				
169	Hahei	3	5	1	6	2	4				Hadley Dryden's marketing of the Coromandel should be rewarded, we need to get our facilities improved and care for our environment before more marketing takes place. Our environment needs to come first. If we lose out natural assets and health of out people declines, then there will be no Village or tourists.
170			Tick in box			Tick in box	Tick in box			Text only. The Wigmore stream needs a good clean up	Stream in Wigmore Cres
171		5	3	1	6	2	4			Hadley Drydens marketing of the Coromandel should be rewarded. We need to get our facilities improved and care for our environment before more marketing takes place.	Our environment needs to come first. If we lose our natural assets and health of our people declines, then there will be no village or tourists.
172	Hahei	4	5	1	6	3	2			Reticulated sewerage for all of Hahei. Serious problems occur on a regular basis	Wastewater and reticulation, a basic to a healthy environment
173		1	3	6	5	2	4				Need to keep visitor parking out of Pa Road
174	Hahei										
175											
176	Hahei	3	5	2	7	1	4				
177	Hahei	5	6	3	2	1	4			Above all else we need to focus on keeping NZ beautiful	
178	Hahei	1	2	4	5	3	6				To get more tourist into the area the management of traffic is the most important along with car parking. The horse must go before the cart.
179		2	1	6	7	4	3	5			
180		6	4	1	2	3	5				We have no sewerage in 1/2 the village
181		2	1	2							Lack of toilets leading to large queue
182		1	2	3	7	7	4				At present cars are parking on road verges and in reserves. The road parking where there are no footpaths makes walking very dangerous i.e. Pa Road.
183	Hahei	2	3	1	4	1	5				Our environment must be the priority. We need to protect this for our generation, the next generation and beyond.
184		5	6	3		3	1			Why do we have to be concerned about moving visitors around better? Make sure all visitors know they have to walk before they get to Hahei. There should be no costs incurred as an extra charge on ratepayers.	Hahei is a village first and foremost, it is a unique place. Great care and consultation must be taken with any further development to Hahei. Do not overstate the importance of tourism.
185	Hahei	1	6	5	7	4	3	2		Take care of the needs of ratepayers and our environment before spending on visitors definitely no more marketing but yes we need more toilets, shuttles, seats on beachfront et for visitors and locals	Current situation is pretty chaotic on busy days and will only get worse as visitor numbers grow even without the walkway. Cathedral Cove will always be the main attraction.
186		1	6	4	2	3	5	7			Traffic management and car parking are presently essential to ensure a quality experience
187	Hahei	1	5	2	3	4	6			Further commercial use must cease on conservation principles as noted above	To reduce crowds compromising the natural character of the area.
188	Hahei	1	3				2				The inconvenience and disruption to our once quiet village.
189		1	5	4	6	3	2			Limit residential development and concentrate on Whitianga to take the numbers/growth	At present the area for a period of two months has become packed. There has been a number of incidences where children could have been hit by cars.
190	Lees Road	5	6	1	3	2	4				It is time TCDC spent money on local infrastructure and not tourism.
191				3	1	2		4		We need much more toilets as areas where they should be are being fouled.	Most important

192	Hahei	4	5	1	6	2	3			Priorities 1 & 2 should be read together. I believe the health and safety of Wigmore Stream to be paramount, and this could be greatly enhanced by removing all septic tanks from residences that back onto stream.
193		4	2	3	5	1				People visit because of it it's very hard to recover when quality has been lost.
194	Hahei	1	5	4	2	3	6			Traffic entering and parking is destroying the whole reason for coming here.
195		1	6	5	4	3	2	7	We need more toilets, shuttles etc. but no more marketing at all. No more people please!	Traffic is chaotic now and will only get worse even without a walkway. You must deal with current problems and other tourist infrastructure before even considering further walkways or attractions. Any current solutions must also allow for natural growth in numbers that will occur in next 10 years, not just the current numbers.
196		1	5	4	3	2	7		Because our property is in Hahei where traffic threatens to ruin a beautiful environment.	
197	Hahei	4	7	1	6	2	3		1 and 2 combined as stream pollution and low-lying land contamination from sewage systems has had no active remedial action even after a few reports, on of which has resulted in any action.	
198		1	2			3	4			
199	Hahei	1	1	1		3	2			These three (traffic management, waste water and improved tourist facilities) all go hand in hand, therefore are all equally important Tourism is increasing many in the area rely on it. Number of "day trippers" is alarming in the holiday season. They either go to the beach or up to the Cove. The strain on facilities is huge. Toilets will stop people using the bush.
200	Hahei	1	2							Over summer these are the most important
201	Hahei	1	4	3	6	2	5			The management of traffic need to be extended throughout summer not just for 6 weeks.
202		2	6	5	4	3	1			
203		4	5	1	6	2	3			Priorities 1 and 2 should be read together. I believe the health and safety of Wigmore stream to paramount, and this could be greatly enhanced by removing all septic tanks from residence that back onto stream.
204	Hahei									
205	Hahei									
206	Hahei	1	6	5	7	4	3	2		We need more toilets, shuttles etc. but no more marketing at all. No more people please!
207	Hahei	7	3	2	6	4	5	1	Signage everywhere and it is actually unsafe to a large % of tourists visiting our area and distracted by them.	Please control signage which is now out of control and on both sides of the road.
208		1	5	6	7	2	4	3	Shambolic state of roadsides in Hahei. Urgent need to repair hazardous road edges of Pa Road southern end and Margaret Place.	Because the very ## that "make" Hahei are being degraded by too many tourists. And this will get worse with increasing tourist numbers. Traffic management has been instituted only in one area - Grange Road - thereby shifting the problem elsewhere - particularly onto Hahei Beach Road which urgently needs traffic management (see other comments). The streams are polluted by human and agricultural activities.
209	Hahei	Tick in box	Tick in box	Tick in box						Need to have better traffic control now and in future
210	Hahei	1	2	5	6	3	4			The Lees Road will disperse traffic but majority of cars will still come into Hahei to see the beach and café.
211	Hahei	1	6	5	4	1	2			Because of contamination. But all are significant
212	Hahei	1	7	1	1	1	6		Over the summer 2(tourist facilities) top priority.	Hahei can not hold much more.
213		1	6	2	3	5	4			Traffic and car parking impacting on ratepayers way of life, Cathedral Cove and Hot Water Beach are a shambles.
214		1	2	4		3			Vehicle crossing from streets to residential section e.g. Dawn Ave. Car park on the berms in front of entrances to sections.	
215	Hahei							tick	They are all top priority and are not mutually exclusive when determining a long term vision.	
216	Hahei	5	2	4	6	3	1			Because without some allowance for commercial and residential growth the village will stagnate.
217	Hahei	1	5	2	4	3	6		During peak time Grange rd. needs to be closed at the bottom and people either take the walk beach track to car park or walk up the road. The car park has too many people camping overnight.	Because it's obvious traffic and people visiting Hahei need an alternative access.
218		3	6	2	4	1	7			We need to look after our environment, reducing growth in visitor numbers rather than adding just for economic benefit.
219	Hahei	2	2	2	2	2	2	1	Long Term Planning	There needs to be one overall and long term plan which incorporates all of the issues above and more for Hahei Village to adequately cope with the summer influx of people.
220		4	5	1	3	2	6	7		Septic tank waste water effect on out community environment and xxx quality of wigmore stream water.
231	Hahei	3	5	2	7	1	4			
232	Hahei	5	6	3	2	1	4		Above all else we need to focus on keeping NZ beautiful	
233	Hahei	1	2	4	5	3	6			To get more tourist into the area the management of traffic is the most important along with car parking. The horse must go before the cart.
234		2	1	6	7	4	3	5		
235	Hahei	6	4	1	2	3	5			We have no sewerage in 1/2 the village
236	Lees Road	2	1	2						Lack of toilets leading to large queue
237		1	2	3	7	7	4			At present cars are parking on road verges and in reserves. The road parking where there are no footpaths makes walking very dangerous i.e. Pa Road.
238	Cooks Beach	2	3	1	4	1	5			Our environment must be the priority. We need to protect this for our generation, the next generation and beyond.
239		5	6	3		3	1		Why do we have to be concerned about moving visitors around better? Make sure all visitors know they have to walk before they get to Hahei. There should be no costs incurred as an extra charge on ratepayers.	Hahei is a village first and foremost, it is a unique place. Great care and consultation must be taken with any further development to Hahei. Do not overstate the importance of tourism.
240	Hahei	1	6	5	7	4	3	2	Take care of the needs of ratepayers and our environment before spending on visitors definitely no more marketing but yes we need more toilets, shuttles, seats on beachfront et for visitors and locals	Current situation is pretty chaotic on busy days and will only get worse as visitor numbers grow even without the walkway. Cathedral Cove will always be the main attraction.
241		1	6	4	2	3	5	7		Traffic management and car parking are presently essential to ensure a quality experience
242		1	5	2	3	4	6		Further commercial use must cease on conservation principles as noted above	To reduce crowds compromising the natural character of the area.
243	Hahei	1	3				2			The inconvenience and disruption to our once quiet village.
244	Hahei	1	5	4	6	3	2		Limit residential development and concentrate on Whitianga to take the numbers/growth	At present the area for a period of two months has become packed. There has been a number of incidences where children could have been hit by cars.
245	Hahei	5	6	1	3	2	4			It is time TCDC spent money on local infrastructure and not tourism.
246	Hahei			3	1	2		4	We need much more toilets as areas where they should be are being fouled.	Most important
247	Lees Road	7 (Lees Road)	3 (Improve existing toilets)	2 (Long awaited)	(Always important)	4	control entry	1	Signage everywhere and it is actually unsafe to a large percentage of tourists visiting our area and distracted by them.	Please control signage which is now out of control and on both sides of the road.
248		1	2	6	5	4	3			Traffic issues in Hahei are reaching crisis point, cars parked haphazardly no footpaths neat the beach resulting in public wandering all over the road.
249		Tick in box	Tick in box	Tick in box					Need to have better traffic control now and in the future.	
251		2	2	1	1	1	2			Every Hahei household should be connected to water and sewage this is a fundamental Council service.
252		3	6	5	4	1	2		Because of contamination, but all are important.	

253	Hahei	6	4	1	3	2	5		Sort out improve infrastructure in Hahei, then build to support the great walk - slowly - and get it right!	Infrastructure within Hahei should be improved to accommodate current population before creating new issues.
254	Hahei								Attachment - Lee's Road	See Support Lees Road
255		1	2	4		3			Introduce P90 parking at shops. Vehicle crossings from streets to residential sections e.g. Dawn Avenue.	Cars park on the berms in front of entrances to sections.
256									See other comments	
257	Hahei	2	5	3	6	4	1			Hahei the same as the rest of the New Zealand is growing we should be managing it.
258	Lees Road	3	7	4	4	5	2	1	comprehensive Hahei development on grass roots community input with emphasis on socio/economic considerations, not just tourist development.	shocked at unprofessional peace meal planning so far.
259	Hahei	1	3	6	4	2	5		Attachment - Lee's Road	solving this will relieve local tension and make sensible discussion about everything else more likely
260		4	5	3	2	1	4			1,2,3 are all of equal importance and impact on each other.
261		4	5	2	3	1	6			The Wigmore stream is constantly Xing, especially over summer and this presents a major health hazard.
262		1	2			3	4			The place is full, no more people wanted
263	Hahei	3	3	5	2	1	2	7		
264	Hahei	1	2	3						Cars appear to be a big problem for the future with most visitors intent on visiting cathedral cove
265										
266	Hahei									
267	Hahei	3	2	4	5	1	6	7		Water and stream quality is a priority.
268		1	4	2	6	5	3			The numbers of cars to Hahei appears to have dramatically increased in the past few years. It is clearly an issue particularly at peak times.
269	Hahei	1	2	3	6	5	4	7		This is the immediate problem
270		2	1	4	3	5	6	7		Reducing the need to drive about the village.
271	Hahei	3	5	2	4	6	7		Attachment - Letter	
272		3	1	5	2	2	4	7		Because of recent big influx of visitors, infrastructure was has to be improved to cater for them.
273	Hahei	1	2	5	4	6	3			There has been some improvements over the last 2 years, but still requires stricter enforcement of "no parking" areas.
274	Hahei	1	2	5	4	3	6			With good efficient car parking traffic management visiting tourists have an enjoyable Cathedral Cove experience. Signage and prior marketing information will alleviate confusion visitors have as to why they are in the Village Car park.
275	Hahei	1	2	3	4	5	6			Too congested
276	Hahei	2	3	1	5	4	6			
277	Hahei	4	5	1	3	2	6			We have a critical problem with this in Hahei.
278		1	7	4	5	3	2			Traffic Congestion
279	Hahei	3	1	5	4	6	2			Hahei is lacking in infrastructure for tourists and local this includes commercial.
280	Lees Road	4	3	2	1					Without quality drinking water the entire community suffers
281	Hahei								See other comments	
282	Lees Road	5	6	1	2	3	4			Current system not coping. Population growing that's why the stream stinks.
283	Hahei	4	5	2	3	1	6	7		It is good to see eels and small native fish in out streams when I kayak up them. We are earths custodians so keep it pristine. No one wants to see polluted waterways.
285	Hahei	2	1	3	6	5	4			To align with central government goals.
286		1	no	6	6	6	6	7		All things are good i.e. water, sewage, streams, zoning.
287	Hahei									See Other Comments
288	Hahei	4	5	3	2	1	6			Environment first.
289		2	3	6	5	1	4	1	The encroachment of commercial (activities) on the beach. Kayaks have taken a huge percentage. How has that been allowed.	It's a disgrace that there are warning signs (warranted) in the Pa Road end stream when so many children play in it.
290		4	6	2	3	1	7	5	Conservation not development	quality of stream varies wildly
291		5	7	2	3	1	4	6	Note on waste water and water, was this extended to Pa end of xxx, as you provide zero service currently.	The stream water quality is poor and only improved when residents draw it. Your management/infrastructure non existent of this resource.
292		N/A								
293		3	2	4	7	5	1	6		Water and stream quality is a priority
294		1	4	2	6	5	3			The number of cars in Hahei appears to have dramatically increased in the past few years. It is clearly an issue particularly at peak times.
295	Hahei	2	1	4	5	3	7			We have 1 female toilet and 1 male toilet in commercial area, with no soap! It should be increased in size to manage the increasing number of tourist.
296	Hahei	1	2	2	7	3	6	5		The current traffic and parking chaos is dangerous and unnecessary Cathedral Cove and Hahei beach car parks should be closed to all car parking and accessible only for drop offs or bus parking. Barrier arms and swipe cards for bus drivers would give effect to this. Street parking should be available to Bach/home owners and their visitors - an annual card system would work. Overseas visitors walk or use the bus and expect to pay for access to national park etc. Its NOT okay for the environmental and other costs of mass tourism to continue to be placed on local ratepayers.
297		5	6	1	3	2	4			To see the over flow of wastewater and sewage Seeping into and polluting the stream down the Pa end of the Beach is disgusting.
298		3	5	2	6	1	4			The quality of the stream at Pa Hill end of the beach is at times disgusting. This is a blight on beautiful clean and green Hahei.
299	Lees Road	5	1	4	2	3	6			I think it is important to manage the growing numbers of visitors wisely to minimise their impact on the environment.
301	Lees Road	1	4	2		3				During xmas and other long weekend parking/congestion is a real problem and consequently traffic management
302	Lees Road	2	4	3	5	1	6		Lack of footpaths on busy Hahei roads - Pa/Wiemere Place	Because children tend to play in Wigmore stream. Health reasons.
303	Lees Road	2	4	1	6	3	5			Wastewater improvement will stop leaching of septic tanks and improve stream quality.
304	Hahei	2	3	1	5	6	4	7	Plant mix on beach road. The current practise of chip on Tar creates a scattering of chips over the berm, Just prior to x-mas is not a good time to do the job,	The village needs to have a replacement for septic tanks
305		1	7	5	4	3	6	2	A ban on freedom campers from look-out on grange road. In the evening it becomes a "city" with tables and chairs, cookers spread out over car park and footpath. We noted rubbish is an issue too. It obviously a cheap night for them.	
306		4	6	1	3	2	5			Locals suffer from tourism. Poor waste water management is rarely/never noticed by visitors, locals must live with the issues.
307										
308		1	1	2	7	3	6	5		Because congestion of side roads heading to cathedral cove parking has been "abused by tourists" jamming side streets during holidays for several years now. Signage - Council has seemingly solved this problem and good car parking. We share Hahei Facilities i.e. parking etc. Lees Road residents use Hahei - Share facilities.
