Submission Summary: Seeks identification of SNAs on planning maps and linkage of SNA areas to the biodiversity overlay rules. Opposes 'Sustainable Use' rule, seeks Table 1 to be replaced with detailed amendments; seeks extension of scope of rules to include other activities than 'clearing of indigenous vegetation', seeks management of SNAs in areas smaller than 0.5 ha.

Decision Requested: Identify SNAs on Planning Maps and link to Biodiversity Overlay Rules. Extend scope of Rule 29.3 to cover other activities, including earthworks and drainage, buildings and structures, pests and weeds, and stormwater run-off as discretionary activities and provide appropriate assessment criteria to address adverse effects on biodiversity values. Amend Section 29.1 Background and Section 29.3 Permitted Activities to clarify that for biodiversity outside of SNAs any clearing of indigenous vegetation in any zone or area is restricted discretionary. Amend Rule 29.5 Table 2 to distinguish Restricted Discretionary Activities assessment matters for non-significant biodiversity. Retain Section 29.1 Background second paragraph and retain Rules 29.5 Table 1, controlled activity matter 1 and Table 2 discretionary criterion 1b. Delete Rule 2. Delete Rule 3 and replace with a list of exempted activities which are expected to have less than minor effects on indigenous biodiversity. Amend Rules 3.2 and 3.5 to make vegetation clearance a non-complying activity. Amend Table 2's wording as per written submission. Submission Summary: Paragraph 4 inaccurately states the position in respect of historic heritage items (not archaeological sites) that are registered by the NZHPT. It is appropriate to include a paragraph clarifying responsibilities in respect of pre-1900 archaeological sites (not just those that are scheduled), any modification to which requires an archaeological authority under the HPA.

Decision Requested: Amend the paragraph to read: "Some of the historic heritage items scheduled in the Plan are also registered as historic places by the New Zealand Historic Places Trust - Pouhere Taonga (the NZHPT). Where a scheduled item is also a registered historic place, consultation is recommended with the NZHPT prior to undertaking works affecting the heritage values of that item. The NZHPT would also be considered to be an affected party in respect of any resource consent application affecting a registered Historic Place, Historic Area, Wahi Tapu or Wahi Tapu Area." Insert a further paragraph as follows: "In respect of any archaeological site that pre-dates 1900, (whether that site is registered, scheduled, recorded or unrecorded), the approval of the NZHPT is required prior to any works being carried out that may modify, damage or destroy that site."

Submission Summary: The rules need to be amended so as to apply to the various activities in a manner that helps meet the objectives for historic heritage. In particular Rule 12 appears to allow demolition etc. of any building within a Historic Heritage Area Overlay as a permitted activity, which is considered inappropriate for a contributory building. (refer to original submission for specific wording).

Decision Requested: Amend the Section 31 rules in respect of the Historic Heritage Areas in the manner shown in Attachment D (refer to NZHPT submission). Further amend the rules in respect of Historic Heritage Items to provide for building safety in the manner outlined in Attachment A (refer to NZHPT submission).

It would be helpful if this section could be reformatted to aid understanding; for example on all those pages where there is reference to other rules, then those rules could appear on a fold out section attached to a page at the beginning of the section, that the reader can refer to. This reference section would include the definitions of the various classes of activity, as the casual reader will have difficulty retaining the definitions or the constant reference to other parts of the plan.

Natural Character Overlay

Support/Oppose/Neutral: Oppose

Submission Summary: Oppose requiring landowners to 'groundtruth' areas of significant indigenous vegetation, outstanding and amenity landscapes and areas of natural character when it comes to reinstating pasture or for subdivision or land use unrelated to environmental or conservation lots.

Decision Requested: 1. Remove any requirement that Natural Areas, Outstanding Landscapes and Amenity Landscapes be "ground-truthed" at the cost of the landowner or applicant for resource consents. 2. If natural areas, Outstanding Natural Landscapes or Amenity Landscapes are retained, they only do so only on the basis that their extent location and boundaries are determined at no cost to the landowner before they come into play for consents (land or subdivision) under the Plan. 3. The only exception to this may be where a landowner or consent holder derives the benefit of additional lots through conservation or environment lot subdivision. 4. Reword Section 24 Policy 5b to state: "Except in the case of reinstatement of pasture and clearance for firewood clearance of indigenous vegetation shall be discouraged in the Coastal Environment;" and 5. Add to Section 24 Policy 5c after the words "where areas vulnerable to modification" the following "as identified (having being ground truthed) in the Overlay Maps for Natural Character and Outstanding Natural Landscapes and Amenity Landscapes".

Submission Summary: Opposes Rule 3 as written. This rule fails to distinguish between political speech and commercial advertising and fails to distinguish between signs posted by individuals for basic private purposes and those of businesses. Signs cannot be put all in one category.

Decision Requested: Right of all landowners to display a limited number of fixed signs up to a reasonable size limit (such as one square metre) each for the purpose of personal political speech or for the purpose of highlighting a home-based productive activity or personal service.

Submission Point No: 666.6(Section 32 - Landscape and Natural Character Overlay Rule 3) **Category** Section 32 - Landscape and Natural Character Overlay

Character Overlay Rule 6)

Support/Oppose/Neutral: Oppose

Submission Summary: Opposes Rule 6 as written. This rule makes no distinction between a typical small 400 watt domestic wind turbine (that is typically used in conjunction with a few rooftop solar panels in remote and off-grid home installations) and the larger commercial wind turbines that range from 500 kilowatts up to 1 megawatt or more.

Decision Requested: Allowance in the rules as a permitted activity under this section installation of typical wind turbines for domestic power. Rule should specifically allow small turbines of a reasonable size (up to 1000 watts) installed according to manufacturer specifications on either rooftops or light pole towers of reasonable height (up to 20m).

Submission Summary: A landscape review study (referred to in the s32 report) has been undertaken to identify the Outstanding Landscape overlays. It is not clear however if specific work was done in this report in relation to assessing telecommunication

infrastructure in these areas. Non-complying status is not considered appropriate as network utility equipment may need to be located within these areas in some circumstances where there are no practical alternatives. In some situations localised environmental costs may be outweighed by broader community benefits Discretionary activity status is considered to be more appropriate, noting that network utility structures in these areas will need to be justified through a resource consent process, including an assessment against the relevant Objectives and Policies. It is noted that Road Zone provisions apply in roads in Outstanding Landscape areas, which is supported.

Decision Requested: Amend 32.3 Rule 7 to provide for the following as a discretionary activity: 'above-ground electricity or telecommunication line' 'electricity or telecommunication facility' and a 'telecommunication mast, tower, dish and associated antenna and equipment'

Submission Point No: 817.20(Section 33 - Maori Land Overlay) **Category** Section 33 - Maori Land Overlay

Support/Oppose/Neutral: Support

Submission Summary: Supports Section 33 but considers that the provisions are too narrow and do not go far enough to enable a range of potential activities and uses on Maori land. Also notes that there is no reference to treaty settlement lands.

Decision Requested: Amend Section 33 to enable a wide range of activities and uses of Maori land and incorporate treaty settlement land into this policy framework. Change activity status's where it is inconsistent with enabling use and development of Maori land and treaty settlement land.

Support/Oppose/Neutral: Neutral

Submission Summary: Requests applicability of Section 33 rules to land owned by the descendants of the original owners that were subject to the 1967 Maori Affairs Amendment Act and relaxation of density requirements.

Decision Requested: 1. Reduce housing density requirement to allow current papakainga living to be formally established.2. Ancestral lands still owned by the descendants of the original owners that were subject to the 1967 Maori Affairs Amendment Act shall qualify for the provisions in Section 33 of the Plan.

Submission Summary: Requests amendments to activity status, rules in the Current Coastal Erosion Area and recalculation of Future Coastal Protection Line by reference to 2114.

Decision Requested: Section 34.5 to be amended and based on a recalculated Future Coastal Protection Line (FCPL) by reference to 2114. Identify the coastal erosion risk corresponding to the Current Coastal Erosion Line (CCEL). Amendments to ensure increases in the risk of harm from coastal hazards in the FCPL is avoided. Amend Rule 9 activity status to prohibited. Amend Rule 11 to limit non-complying activity status to regionally or nationally important infrastructure or apply prohibited activity status. Amend provisions to prohibit all subdivision in the CCEA .Amend Rule 13 to limit restricted discretionary activity status to regionally or nationally important infrastructure (which should be identified). Other 'soft' coastal defences (excluding natural defences) should be a non-complying activity. Add provisions to Rule 15 that prevent subdivision, new dwellings and other large buildings, and hard coastal defences except consideration of hard defences where they are the only practical option to protect regionally or nationally important infrastructure.
