

# DUNE RESTORATION

## WHAT'S GOING ON?

We are restoring the sand dunes in two stages, planting over 7000 native species. Stage 1 is from 200 Tangaroa Rd north up to 116B Pipi Rd. Stage 2 is from 118 Tangaroa Rd south down to 100 Pohutakawa Crescent. This will involve earthworks to remove exotic grass and weeds, extending the native dune plant zone further landward to enable a more resilient dune (self-repair) system over time.

We will work with your local community, including (iwi) Ngati Pu ki Otairi and (hapu) Uru Ngawera, Department of Conservation and Coastcare Waikato.

## We also need YOUR help.

### COMMUNITY DUNE PLANTING DAY

Join us during July and August 2023,  
exact dates TBC
